Employment

Bicentenary Research Fellow (Geography)

Faculty of Humanities, University of Manchester

2025-

Independent research fellowship focussed on resolving chronologies for marine cores through the construction of a new tephrostratigraphic framework for the Arctic Ocean. In particular, this project seeks to provide chronological constraint for vital sea ice reconstructions. Work will be undertaken in collaboration with researchers at the Alfred Wegener Institute, Bremerhaven (Germany).

Research Fellow in Quaternary Palynology

School of Earth and Environment, University of Leeds

2021-2025

Postdoctoral researcher on the ERC-funded RISEr project (Rates of Interglacial Sea-Level Change, and Responses) led by Prof Natasha Barlow. In this role, my primary responsibility was to develop palaeoecological records for five sediment cores from the southern North Sea, comprising a complex sequence of terrestrial (peat, intertidal, deltaic) and shallow marine facies. I helped lead a large, interdisciplinary team of collaborators from across the UK, Germany, and the Netherlands, organising annual meetings and sending regular project updates and compiling manuscripts.

Education

University of Cambridge, Cambridge, UK

PhD Geography

2021

Title: *Resolving abrupt palaeoenvironmental changes in a lake sediment sequence from Ioannina, northwest Greece*

Supervised by Prof Christine Lane, Prof Harriet Allen (University of Cambridge) and Dr Katherine Roucoux (University of St Andrews)

University of Manchester, Manchester, UK

MSc Geographical Sciences, Distinction

2015

Dissertation: *The potential of cryptotephra as a geochronological tool in Lukenya Hill cave and Panga ya Saidi rockshelter, East Africa*. Supervised by Prof Christine Lane.

BSc (Hons) Geography with International Study, First Class

2014

Dissertation: *Reconstructing Environmental Change in Salt Marshes at Kouchibouguac, NB, and Covehead Bay, PEI*. Supervised by Prof Gail Chmura (McGill University) and Prof Will Fletcher (University of Manchester).

Awards and Funding

Winner of The Geological Society 'Wollaston Fund'

2025

Horizons Institute Connect Fund for leading a stakeholder workshop on Climate Change, Biodiversity, and Agriculture (£5,000)

2023

Carlsberg Foundation Early Career Scientist support grant support grant for attendance at Dansgaard Symposium (£500)

2022

EGU Early Career Scientist support grant for attendance at INTIMATE 2018
EGU Galileo conference (£400)

INTAV ECR/Student Travel Grant for attendance at INTAV International 2017
Field Conference on Tephrochronology (£700)

Winner of 'Best Talk' at the CCfCS Student Symposium 2017

PI on QRA-¹⁴Chrono Centre Radiocarbon Dating Special Grant (£4,000) 2017

Fully funded PhD studentship within the Department of Geography at the 2016
University of Cambridge (£120,000)

Winner of 'Best Geographical Science Student' for highest attainment in
MSc Geographical Science, University of Manchester 2015

Invited Talks

EPOCH Seminar Series, Department of Geography, Royal Holloway, Jan 2023
University of London

Quaternary Discussion Group, Clare College, University of Cambridge Oct 2022

Climate and Chronology Lunchtime Seminar, The Research Laboratory for Jun 2018
Archaeology and the History of Art, University of Oxford

Climate and Environmental Dynamics Lunchtime Seminar, Department of May 2018
Geography, University of Cambridge

Teaching

BSc Environmental Science and BSc Geology, University of Leeds

SOEE 1640 - Earth Through Time (Lecturer) Class of 60-80. Planning and delivery of lecture material, led field class to Ilkley Moor (joint trip w/ 1690).

SOEE 1690 - Shaping the Earth (Lecturer) Class of 60-80. Planning and delivery of lecture material, led field class to Ilkley Moor (joint trip w/ 1640).

SOEE 3010 - Independent Study Project (Supervisor) Supervision of undergraduate alternative mapping projects, including project development, all laboratory training, and support.

Geographical Tripos (BA Geography), University of Cambridge

Part IA (Year 1): Physical Geography - Life on Earth (Supervisor, between 30-40 students), Physical Geography - Environmental Change in the Quaternary (Supervisor, between 30-40 students), Geographical Skills and Methods (Field course demonstrator, 4 days, full cohort >120 students)

Part IB (Year 2): Quaternary Climates and Environments (Demonstrator and supervisor, 40-50 students), Living with Global Change (Supervisor, full cohort >120 students)

Part II (Year 3): Quaternary Climates and Environments (Demonstrator and supervisor, 20-30 students), Volcanology (Supervisor, 20-30 students), Dissertation Skills (Lecturer, full cohort >120 students)

Supervision

Denise Becker (MSc by Research, School of Earth and Environment, *Ongoing*
University of Leeds): A Last Interglacial tephrostratotype at Bispingen,
NW Germany (supervisor; Fulbright Scholarship) – Denise has
recently defended her thesis successfully and is currently applying to
PhD programmes.

Edward Taylor (MSc by Research, School of Earth and Environment, 2024
University of Leeds): Holocene sea-level change and palaeolandscape
reconstruction, North Skye, Scotland, UK (supervisor; self-funded) –

Edward has recently graduated (with distinction) and begun a new job working as a Marine Surveyor at XOCEAN.

Megan Edwards (MGeol, School of Earth and Environment, University of Leeds): Interrogating the biosphere response to the Laschamps 2023 Geomagnetic Excursion at Ioannina, NW Greece (supervisor) – Megan has received a fully funded studentship as part of the University of Cambridge C-CLEAR DTP, which she commenced in Oct 2024.
